

Position

PhD Student

Home institution

Université Evangélique en Afrique

Current/Host institution

University of Abomey-Calavi

Background

Judi Armel BOUROBOU BOUROBOU, born on November 1, 1976 in Moabi, Gabon, is an agricultural engineer and biostatistician. He earned a Baccalauréat (Series D) in 1998, a Higher Technician Diploma in plant production from the École Polytechnique de Masuku in 2001, and an agricultural engineering degree from Katibougou, Mali, in 2004. In 2006, he joined the Institut de Recherches Agronomiques et Forestières (IRAF) in Libreville as a Research Associate, later serving as Regional Officer for Central Africa in the Plant Resources of Tropical Africa (PROTA) program, coordinating research on plant uses (2006–2014). He completed a Master's in Biostatistics at the University of Abomey-Calavi, Benin, in 2017. Since 2020, he has been pursuing a PhD at the Laboratoire de Biomathématiques et d'Estimations Forestières (Labef), focusing on point process models with applications to *Tabernanthe iboga*, supported by DAAD. He has published in peer-reviewed journals and participated in international trainings and conferences.

Research Project

Ecology, Epidemiology, Biostatistics, Environmental Sciences
